

SJS MAPLETON

May 1, 2019

Dear Parents, Teachers, Building Occupants, and Employees,

I would like to take this opportunity to provide you with an update as the campus continues to undergo several improvement projects.

The renovations in Building 2 are close to completion. While the bulk of the work is complete, minor construction will continue through May 2019. The Wilberforce School will move in during the summer months and commence operations in September 2019.

This summer, Building 4 will undergo improvements as well. A new HVAC system will be installed in The French School cafeteria to provide air conditioning to their assembly space. We will also begin the installation of new energy efficient windows. The majority of work is taking place inside, however you may notice some exterior activities on the roof of the cafeteria and around the perimeter of the building. The main entrance stairwell will receive a fresh coat of paint.

Over the summer months the campus will complete various site improvements. You may remember the pole relocation project that took place in the fall/early winter by the circle drop-off area. This utility service relocation was done in preparation for a new parking lot that will be installed this summer. This parking lot will provide additional parking as the campus grows. In addition to the parking lot, other campus site improvements will take place, such as landscaping, lighting, and signage. The majority of the construction will take place during the summer starting around June 17th. However, we will begin mobilization and minor work in mid-May. The new parking lot and other site improvements are expected to be complete in fall 2019.

SJS Mapleton has been actively working with our team of professionals including our traffic engineer, civil engineer, as well as township officials to improve the traffic flow and site design in order to adequately serve all three schools. Included in this newsletter you will find next year's circulation pattern and designated drop-off and pick-up locations. Any required changes in the campus circulation including drop-off and pick-up instructions and locations will be coordinated with each school and their respective community.

The Main Office of SJS Mapleton LLC is located in Building 1. Please contact me with any questions or concerns. I am generally available during the hours of 8am-4pm Monday through Friday and can be reached at 609-452-7500. For additional information and future updates, visit SJSMapleton.org.

Thank you,

Adam Pate
Campus Director of Operations
